Be a KMP

Kanban Management Professional

A new professional designation from Kanban University

A Kanban Management Professional (KMP) knows how to make better decisions and streamline internal workflows to improve service delivery, and create greater customer satisfaction.

KMPs have had specialized training in applying the Kanban Method for better risk management and greater agility.

Kanban uses a probabilistic approach to management.

A KMP has been trained to think differently and use Kanban to improve management results enterprise-wide.

Qualify to be a Kanban Management Professional

A KMP has taken a combination of Kanban University (KU) certified Kanban training classes:

Kanban System Design
KMP I (2 day class)
KU Certified Kanban Class

Kanban Management Professional
KMP II (2 day class)
KU Certified Kanban Class
